Hey man,

Supposing you go to India, and want to continue to use your Google Voice number there, will the same Google Voice number work?

The way I am using it right now is that I log in to <http://voice.google.com> from the browser and then message people from the browser.

Here is a screenshot:

The screenshot shows the Google Voice interface for choosing a number. At the top, it says "Step 1 of 4: Choose Your Number" with links for "Help" and "Sign out". Below this, there are two input fields: one for "Area code or ZIP code" (empty) and another for "Word, letters, numbers" containing the text "lunarkrazy". To the right of the second field is a "Search again" button. Below the inputs, it says "Results for 'lunarkrazy':" and displays a radio button next to the number "(586) 275-7299" with the location "Warren, MI" underneath. To the right of the number is the text "(LUN) ARK-RAZY". At the bottom, there is a "Continue" button and the Google Voice logo.

Best,
Anand
